IT roadmap to the future

LOADSPRING

Tomorrow's security starts now

As an executive IT decision-maker in Project Management, you're always looking for the next big thing in digital transformation, security and data control. Well, buckle up— your journey to Tomorrowland is about to begin.

Problem: Outdated security

**Ignoring IT safety issues** can result in long delays and lost productivity

Using **yesterday's technology** can leave you **susceptible to cybercrime**

Old School safety measures increase **your risk of failure**

Solution: Future-proof your data

Extra layers of protection and constant testing, lead to **safer third-party apps**

LOADSPRING™ security experts are already **smarter than tomorrow's hackers**

LOADSPRING is SSAE SOX 2 Type II certified and has **multi-layer defenses built-in**

CERTIFIED
SSAE SOX 2 Type II
CERTIFIED

YESTERDAY
TOMORROW

Prepare for tomorrow with exponentially sophisticated countermeasures

Better advanced cyber defenses mean:
improved authentication, firewalls, antivirus/intrusion protection, monitoring and data recovery. Yes, you need all of them.

63% **of the data breaches** in 2017 were a result of hacking, which included phishing, ransomware, malware and skimming.[1]

Cybercrime, lost productivity and reduced competitiveness can leave you and your IT department stuck in the wrong century. Let LOADSPRING evolve your digital transformation today.

Schedule your demo with a Cloud expert today.

IT roadmap to the future

LOADSPRING

Accelerating digital transformation

As an executive IT decision-maker in Project Management, you're always looking for the next big thing in digital transformation, security and data control. Well, buckle up—your journey to Tomorrowland is about to begin.

Problem: Slow adoption = slow success

Ignoring digitalization compromises project repeatability and global access

Doing the same old thing yields the same high overhead and **capital spending**

Putting off digital transformation **blunts your business edge and growth**

Solution: Future-proof your data

LOADSPRING™ makes the tech transition **process fast and easy**

Our expert tech teams **handle everything for you**

Accelerating transformation from months to weeks means **instant modernization**

Making you a market leader increases your appeal to new customers and talent

All 20 of 2017 ENR **Top 500** Engineering, Design and Construction firms[1] depend on the LOADSPRING CLOUD PLATFORM.[2]

Cybercrime, lost productivity and reduced competitiveness can leave you and your IT department stuck in the wrong century. Let LOADSPRING evolve your digital transformation today.

IT roadmap to the future

LOADSPRING

Explosive data growth

As an executive IT decision-maker in Project Management, you're always looking for the next big thing in digital transformation, security and data control. Well, buckle up— your journey to Tomorrowland is about to begin.

Problem: Stuck in the past?

Postponing data analysis can lead to everlasting **project darkness**

Allowing **data to expand indefinitely means projects collapse** under their own weight

Business Intelligence **(BI) stagnation can vaporize** your potential for improvement
Solution: Integrate for the future with LOADSPRING™

B

LOADSPRING merges your data from multiple apps for **enhanced reporting**

We give **instant access to BI** to improve processes without extra licenses

Our **intelligent data analysis tools** provide faster project overviews, automated S Curves and more

Automated charts and graphs clearly **reveal your "big picture"**

Daunting Data

It is predicted the world will be creating **163 zettabytes of data a year** by 2025.[1] One zettabyte = 1 trillion gigabytes. **Are you and your IT people ready?**

Cybercrime, lost productivity and reduced competitiveness can leave you and your IT department stuck in the wrong century. Let LOADSPRING evolve your digital transformation today.
